SUMMARY

Design and develop scalable web and mobile applications focused on usability, performance, and clean architecture. Build real-world digital systems using modern frameworks and tools, transforming complex requirements into intuitive user experiences. Create visually compelling interfaces and interactive components that strengthen user engagement and brand presence. Manage end-to-end development workflows, from concept to deployment, while maintaining high standards for code quality and system reliability. Continuously improve technical skillset through hands-on implementation, research, and innovation.

EDUCATION

Adventist University of Central Africa

B.S. in Information Technology

Kigali, Gishushu

Expected Graduation, Nov2026

- **Concentration:** Software Engineering
- **GPA:** 3.2/4.00
- **Related Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Software Security, Introduction to Linux, Big Data ...

EXPERIENCE

CMU Bridge Program

Trainee

Rwanda, Kigali

Oct 2025-Nov2025

- Developed academic and professional skills including presentation design, public speaking, seminar participation, reflective writing, skills auditing, and effective delivery of technical ideas.
- Strengthened teamwork, collaboration, research, and idea development skills through group-based learning and problem-solving activities.
- Gained hands-on technical experience in Arduino C++ programming, embedded systems, sensor integration, and machine learning workflows using Edge Impulse.
- Completed a capstone team project, Smart Fruit Classification System, applying IoT and machine learning to classify fruits by color and ripeness, helping reduce food waste, save time, reduce labor, and improve market-quality produce.

Supreme Court of Rwanda

Networking Intern

Rwanda, Kigali

July 2021-Aug2021

- Supported the IT team in network configuration, setup, and troubleshooting.
- Assisted with basic network administration tasks, contributing to stable network performance.

RBA (Rwanda Broadcasting Agency)

Computer Applications Intern

Rwanda, Kigali

March 2019 – April 2019

- Provided front-line IT support and troubleshooting for software applications, contributing to smooth and efficient daily operations for staff across departments.
- Assisted in software installation, updates, and basic system maintenance, improving overall system reliability.
- Gained foundational web development skills by creating simple websites using HTML and CSS.
- Introduced to Cisco Packet Tracer and practiced building basic network topologies, strengthening understanding of computer networks.

PROJECTS

E-Book Project

Software Developer

[Project Link](#)

Dec 2024 – Jan 2025

- The E-Book project is a full-stack web application built using the MERN stack. This platform allows users to explore and purchase books while providing administrators with robust tools to manage the bookstore. It features a user-friendly interface for customers and a secure admin dashboard for efficient inventory and order management.
- This project served as the capstone project for the ALX Software Engineering program.

- **Technologies:** React , Tailwind CSS , Redux , RTK Query Toolkit , Node .js , Express .js , Mongo DB , JSON Web Tokens (JWT)

Smart Event Registration System

[Project Link](#)

Software Developer

Oct 2025 – Dec 2025–Current

- A web application enabling organizations to create events, manage registrations, and verify attendance using QR code technology. The platform features real-time check-in capabilities, automated digital ticketing, and comprehensive analytics dashboards for event organizers.
- **Techonologies:** React, Tailwind Css, Spring Boot, Spring Security, PostgreSQL, Maven, Git, JWT Authentication, RESTfulAPIs, Render.

SKILLS

Languages: C, C++, Java, Kotlin, Python, JavaScript, PHP, Typescript, Linux.

Frontend & UI: React, HTML5, Figma, Tailwind CSS

Backend & APIs: Node.js (with Express.js), Spring Boot, Django

Databases: MySQL, MongoDB, PostgreSQL, Oracle.

Deployment & Hosting: Netlify, Vercel, Render, Firebase

ACTIVITIES AND LEADERSHIP

Counsel of Jesus

Nyamagabe, Kigeme

President

Oct 2017–Oct 2018

- Led a school prayer group, organizing spiritual and community activities.
- Coordinated meetings and events, fostering peer engagement and teamwork.
- Encouraged participation in community service and personal development initiatives

CERTIFICATION

Advanced NetOps 1.0 – Internet Society

Networking Essentials – Cisco

Software Engineering – ALX

Operating Systems – Cisco

Graduate Bridge Program – CMU-Africa
